Jul 2022 - Aug 2022

## PROJECTS

### 1) Full Ecommerce Platform with Next.js & Tailwind

**Technologies:** Next.js, TypeScript, Tailwind CSS, Shadcn Ui, REST API

#### Features:

- Fully responsive design using Tailwind CSS & Shadcn UI
- User authentication (Sign Up, Login, Forgot & Reset Password, Verify Account, Logout)
- Sections: Products, Brands, Categories & Subcategories, Reviews, Wishlist's
- Shopping cart with coupon support
- Payment integration (Cash & Visa Card)

[Live Demo](#) | [GitHub](#)

### 2) Technical Task from Recent Interview – Figma to Next.js & Tailwind

#### Features:

- As part of a technical interview, I was assigned a task to convert a Figma design into a fully responsive Next.js + React landing page.
- Built the UI using React, Next.js, and Tailwind CSS, ensuring pixel-perfect implementation.
- Applied responsive design principles for a seamless experience across all devices.
- Focused on performance optimization, accessibility, and SEO best practices.
